DETAILED ACTION

Response to Amendment

This Office action has been issued in response to amendment filed 26 July 2004. Applicants' arguments have been carefully and respectfully considered, and, in light of the instant amendments, are persuasive. Accordingly, this application is in condition for allowance.

Allowable Subject Matter

Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1 and 23, dividing data into data segments in units of a sector, which is a logical unit for data management, storing link information which indicates the ordinal relationship (being at a specified position in a numbered series) of the data segments, together with the data segments, in the nonvolatile semiconductor storage section via the storage control section, and storing, as link information in each sector, information about an immediately-previous data storage site and an immediately-subsequent data storage site is not taught or suggested by the cited prior art of record. As generally discussed in the previous Office action, with respect to the cited prior art of record, the state of the art at the time of the invention includes the use of pointers for forward and reverse "corresponding files," but not specifically immediately-previous and immediately-subsequent. In addition, the state of the art did not include the link information containing indicating the ordinal relationship of the data segments, and storing all of this in non-volatile memory together with the

data. Although non-volatile memory is very well-known in the state of the art, as it was at the time of the instantly claimed invention, its use as discussed supra was not, nor could motivation to combine all of the above-listed limitations be found. Claims 2-22 and 24-34 depend upon the instant claim and are allowable for at least the reasons set forth supra with respect to same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
